**Subject:** Release of R8 Data to HQs

Terry (HQs Data Liaison),

Sorry. Here is R8's data. All you had to say is that Deb McKean at Area Command approved the release. We just need to get a process laid out.

We are aware of and are working through the issues that arose during validation.

**Subject:** Data Summaries

Hi All,

Data summaries are attached.

For the Agricultural and Recreation exceedances, there are 2 tables each. One shows the data for the exceedance, and the other is a summary of counts of exceedances per analyte per day.

The table Q\_Surface Water Summary Table... is the "Deepwater format" table.

Over 10% of this data has undergone level 2 validation. The QA\_Comment indicates the level of validation an individual result has undergone (null indicated the result has not been validated).

Please let me know if there are any questions or requests for format changes. I will be back at it in the morning; working with the background screening data as my first priority.

Regards,

Megan J Adamczyk
